1. Claims 1- 22, 24, 25 and 27-32 are again rejected under 35 USC 102 (b) as being anticipated by the patent to Nakamura for the reasons set forth in the last Office action.

Since the Nakamura recording medium employs the same materials in the same positional relationships as the claimed recording medium, it is inherent that the Nakamura recording medium functions in the manner claimed by applicants.

2. Claims 1-7, 10-18, 21, 22, 24, 25 and 27-32 are rejected under 35 USC 102 (b) as being anticipated by the patent to Cheong for the reasons set forth in the last Office action.

The presence of the phase change material discussed by applicants is not mandatory in the Cheong recording medium. Applicants' chromogenic material can be employed instead. In particular, the super-resolution material "is selected among thermochromic materials ...and phase change materials" (see column 5, lines 14-19).

**3. THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
